Solqam Order Export – Developer Spec

Nov 2, 2026 · @wajid

Goal

Build a new **Full Order Export** in the solqam.com admin panel that gives every detail of an order in one sheet: customer, full address, products, quantities, packing, gift wrap, shipping, money and customer instructions.

- The current export (`My_Orders_Solqam_Admin_Store`) only has 8 columns: Order #, Customer (Buyer), Seller / Store, Date & time, Total Value, Cashback, Commission, Fulfillment Status. Keep it as is; add this as a second export option.
- Export format: **.xlsx** (must open correctly in WPS Office) plus **.csv** option.
- Available to Admin (all stores) and to each Seller (only their own store's orders).
- Phone numbers and names must be in their own columns, never joined in one cell like today (e.g. "Adeel 03103285083").

Columns (in this exact order)

Columns are grouped A to J. Group names can go as a merged header row above the column names.

#	Group	Column name	Example	Notes
1	A. Order	Order #	SOL-261101-AFCB1	Primary key
2	A. Order	Order Date	01-Nov-2026	DD-MMM-YYYY
3	A. Order	Order Time (PKT)	11:07 PM	Separate from date
4	A. Order	Order Day	Sunday	For daily reports
5	A. Order	Order Source	Website / App / Manual	Where order came from
6	A. Order	Order Type	Normal / Test / Reorder	Mark test orders
7	B. Store	Store Name	Admin Direct Store	Seller / store
8	B. Store	Store ID	ST-001	

#	Group	Column name	Example	Notes
9	B. Store	Seller Contact	03xx-xxxxxxx	Seller phone
10	C. Customer	Customer Name	Adeel Ahmed	Name only, no phone
11	C. Customer	Phone (Primary)	03103285083	11 digits, text format
12	C. Customer	Phone (Alternate / WhatsApp)	03xxxxxxxx	
13	C. Customer	Email	name@gmail.com	
14	C. Customer	Customer Type	New / Returning	Based on phone
15	C. Customer	Total Past Orders	3	Same phone number
16	C. Customer	Login Method	Guest / Phone / Google	Replace "oauth:xxxx" text
17	D. Address	Full Address	House 12, Street 4, Block B	As typed by customer
18	D. Address	Area / Locality	Gulshan-e-Iqbal	
19	D. Address	City	Karachi	Dropdown on checkout
20	D. Address	Province	Sindh	
21	D. Address	Postal Code	75300	Optional
22	D. Address	Nearest Landmark	Near Imtiaz Store	
23	D. Address	Address Status	Complete / Incomplete	Auto-flag short addresses
24	E. Product	Product Name	Wireless Earbuds Pro	One row per product
25	E. Product	SKU	YM-EB-021	
26	E. Product	Variant	Black / Large	Color, size
27	E. Product	Category	Electronics	
28	E. Product	Supplier / Source	YourMart.pk	Where stock comes from

#	Group	Column name	Example	Notes
29	E. Product	Unit Price (Rs)	1,400	
30	E. Product	Quantity (Units)	2	Units of this product
31	E. Product	Line Total (Rs)	2,800	Unit price x qty
32	E. Product	Total Products in Order	2	Different items
33	E. Product	Total Pieces in Order	3	Sum of all quantities
34	F. Packing	Packing Type	Flyer / Box / Bubble wrap	
35	F. Packing	Packing Cost (Rs)	40	Our expense
36	F. Packing	Gift Wrap	Yes / No	
37	F. Packing	Gift Wrap Charge (Rs)	150	Charged to customer
38	F. Packing	Gift Message	Happy Birthday Ali	If any
39	F. Packing	Package Weight (kg)	0.5	For courier
40	G. Shipping	Shipping Method	Standard / Express	
41	G. Shipping	Courier	TCS / Leopards / PostEx	
42	G. Shipping	Tracking Number	123456789	
43	G. Shipping	Shipping Charged to Customer (Rs)	200	
44	G. Shipping	Actual Shipping Cost (Rs)	180	Courier bill
45	G. Shipping	Dispatch Date	02-Nov-2026	
46	G. Shipping	Delivered Date	05-Nov-2026	
47	H. Money	Subtotal (Rs)	2,800	Products only
48	H. Money	Discount / Coupon Code	NOV10	
49	H. Money	Discount Amount (Rs)	280	

#	Group	Column name	Example	Notes
50	H. Money	Cashback (Rs)	86	Existing field
51	H. Money	Commission (Rs)	350	Existing field
52	H. Money	Grand Total (Rs)	2,870	What customer pays
53	H. Money	Payment Method	COD / JazzCash / Easypaisa / Card	
54	H. Money	Payment Status	Pending / Paid / Refunded	
55	H. Money	Product Cost (Rs)	1,900	Our buying cost
56	H. Money	Net Profit (Rs)	520	See formula below
57	I. Instructions	Customer Note / Instruction	Call before delivery	From checkout box
58	I. Instructions	Preferred Delivery Time	Evening	Optional
59	I. Instructions	Internal Admin Note	Confirmed on call	Staff only
60	J. Status	Order Status	Placed / Confirmed / Shipped / Delivered / Cancelled / Returned	
61	J. Status	Confirmation Status	Confirmed / Not answering / Fake	From call team
62	J. Status	Cancel / Return Reason	Customer refused	
63	J. Status	Last Updated	02-Nov-2026 10:15 AM	

Net Profit formula: Grand Total − Product Cost − Packing Cost − Actual Shipping Cost − Commission − Cashback. Gift wrap charge is income, already inside Grand Total.

Row structure

One row per product (line item), so an order with 3 different products gets 3 rows.

- Order, store, customer, address, shipping, money, instructions and status columns repeat on every row of the same order.

- Money columns 47–56 and Packing/Shipping cost columns show only on the **first row** of each order; other rows stay blank. This stops totals from being counted twice.
- Rows of the same order stay together, sorted by Order Date + Time, newest first.
- Light alternate shading per order (not per row) so each order is easy to see.

Sheet layout and filters

The file has three sheets: Orders (detail), Summary, and Pending Dispatch.

Export filters (before download):

- Date range (from – to), with quick buttons: Today, Yesterday, Last 7 days, This month
- Store (all or one)
- Order Status, City, Payment Method
- Hide test orders (on by default)

Formatting rules:

1. Row 1: group headers (merged); Row 2: column names; freeze top 2 rows and the Order # column.
2. Phone and tracking numbers saved as **text**, so the leading 0 is not lost.
3. All amounts as numbers (not "Rs. 2,545.00" text), header says (Rs). This lets SUM work in WPS.
4. Dates as real date values, time in a separate column, Pakistan time (PKT).
5. Auto-filter on, column width auto-fit, normal font (Arial/Calibri 10), wrap text only for Address and Notes.
6. Highlight in light red: Incomplete address, Cancelled/Returned orders.

Summary sheet (for the selected date range): total orders, total pieces, total sales, total packing cost, total shipping cost, total gift-wrapped orders, net profit; plus order count by city, by store, and by status.

Pending Dispatch sheet: only Confirmed orders not yet shipped, with name, phone, full address, city, products, quantity, gift wrap, note. This is the packing list for the team.

Data to capture and done checklist

Many columns need data the site may not store yet. Developer should check each and add what is missing.

Checkout form – add or make separate fields:

- Name, Phone, Alternate/WhatsApp phone, Email (separate fields)

- Address, Area, City (dropdown), Province, Landmark
- Gift wrap checkbox + gift message box
- "Special instructions" text box

Product / admin settings – add:

- SKU, Supplier, Product Cost per unit, default Packing Type and Packing Cost
- Courier, tracking number, actual shipping cost, dispatch and delivered dates (entered by admin per order)
- Confirmation status and internal note (for the call team)

Old orders that miss these fields export with blank cells, not errors.

Done when:

- [ ] Export downloads as .xlsx and opens cleanly in WPS Office
- [ ] All 63 columns appear in the order above
- [ ] A 3-product order shows 3 rows, totals counted once
- [ ] Phone numbers keep the leading 0
- [ ] SUM on any amount column gives the right total
- [ ] Filters (date, store, status, city) work
- [ ] Summary and Pending Dispatch sheets match the Orders sheet
- [ ] Seller login sees only their own store's orders
